CIRCULAR LETTER N° LC/CCAA/DG/DTA/CEAVA OF
Relating to the alleviation of the COVID-19 sanitary measures for travelers to and from Cameroon.

TO

- Representatives of Airlines
- The Heads of Stations
- Airport Security Companies

On the instructions of the Minister of Public Health (MINSANTE), following the favourable evolution of the epidemiological situation of COVID-19 in Cameroon, reflecting the control of this pandemic at the national level, in phase with the African and world context, and in order to align with the recommendations of the World Health Organisation (WHO) as well as the provisions already in force in most countries,

The following measures shall henceforth apply to air travellers to and from Cameroon:

- I. The entry of travellers into Cameroon will be conditioned by the effective presentation of a negative PCR test dating back to less than 72 hours or of a complete vaccination schedule.
- II. PCR tests are no longer systematic when leaving Cameroonian territory, but will be required according to the requirements of the country of destination.

In view of the above,

I urge you to proceed without delay to the widest possible dissemination of these measures to your passengers, at the same time as I encourage you to continue to sensitize them to the strict observance of all measures aimed at curbing the spread of the coronavirus during air travel.

I attach importance to strict compliance with this letter /-
